INF370: Deliverable 10 (Project Day) – Planning document

The following is the basic content of these deliverables and includes the aspects you need to plan for:

The following material should be ready for project day:

1. Branding done for product and group information available in some format e.g. brochure or business card
2. Technology such as laptops, screens, input and output devices, etc. to demonstrate system at stall.
3. Informational posters to explain system.
4. Promotional items to attract people to your stall.
5. Table cloths and everything else to beautify the stall.
